Social Media and Remote Runner Tracking

For the Runner—Runner Broadcast Service

Runners may announce their progress every 10K of the marathon course by automatically posting timing updates on their Facebook timeline or over their Twitter feed.

By broadcasting split times, runners can effectively inform every friend or follower of their triumphant trek through the nation’s capital.

For the Supporter—Track a Runner

Relatives, friends, and running buddies will all be able to follow a runner’s progress along the MCM course in real time.

The virtual support crew can sign up to receive updates for one or multiple runners from the 10K, 20K, 30K, 40K, and finish-line split locations.

The timing data may be delivered by text or email or posted on personal Facebook and/or Twitter pages.

For the most accurate tracking, please download the [official MCM app](#) for your phone.
